

For your wellbeing

Created in 2014, **Knit** is a collection of furniture by Ethimo. Designed by Patrick Norguet, it initially consisted of tables and chairs, made using teak and woven synthetic fabric fibre. Recently, a sun lounger, a loveseat, a coffee table and a bergère-style armchair has been added to the collection. Knit is Norguet's desire to merge indoor and outdoor.

The royal touch

The Dome Armchair is a part of the Casanova Collection launched by Modenese Gastone.

Taking inspiration from the classical baroque of the XVIII century, this collection is all about handmade luxury meeting beauty and handiness. The dome armchair is a carved beech high back armchair, upholstered with imprinted flower velvet and finished by light walnut and gold.

Perfect expressions

Altai, designed by Jacob Marks for Skram consists of tables, dining, sofas, chairs and sideboards. With merging advanced machining technologies and traditional furniture making techniques, Altai represents the perfect expression of Skram's model of manufacturing.

Thin lines

While the elegant upholstered exterior sits on a delicate wire frame, **Leya Bench's** interior is soft and inviting like a large cushion. In this way, designers Birgit Hoffmann and Christoph Kahleyss's chair design is the result of combining opposites. The Leya bench (available at 180cm, 200cm, 220cm or 240cm length).

Standing tall

Known for its contemporary and quirky products, **Peep Out** by New Delhi-based studio Mother Gone Mad is a simple yet striking floor lamp. Designer Ritika Nanda wanted to create an easy looking floor lamp and thus used thin tall lines to hold the lampshade, thereby giving it a very modern look. Peep Out comes with a blue metal base and the fabric shade above can be customised to one's choice.

Rock the party

London-based Buster & Punch recently collaborated with Mutt Motorcycles to design the limited edition bike called **LDN Born Mutt**. Designed to make a common man feel like a rock star, this motorcycle is a limited edition of only 50 bikes and comes with a unique racing number for each. This 125cc bike is priced at £4,500 and is surely going to kick start a race between design lovers and motorcycle collectors.

Boldly elegant

Palm wood is comparatively a difficult material to work with. However, overcoming the challenge, interior designer Nora Gabriel recently launched **First Class Furniture**, her latest range of furniture in palm wood. Inspired by the 21st century and manufactured in Germany, these furniture pieces showcase extravagant palm wood veneers merged with bold design forms. Her range was also showcased at the recent IMM Cologne 2016.
